Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Franklin.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Aries

Aries is the first sign of the zodiac, and Aries natives are the first to start--and the first to finish--whatever they set out to do. Aries is an active, energetic sign. People with Sun in Aries are direct, straightforward, and uncomplicated. They expect the same from others and are baffled when they don't always get it.

The body comes first with Aries. Sun in Aries people are natural athletes. At the very least, their natural inclination is to use their bodies to get things done. They're not given to long, drawn-out emotional moments, nor are they big on planning ahead. Instead, they live their lives simply. What is happening *right now* is most important to Aries.

Impatience is a definite vice, and innovation is a huge strength. Aries love to start anything new, and they have trouble sitting still. They are pioneers in whatever they do, and there is a fundamental quality of bravery in these people that is unmistakable! Aries generally know what they want, and they know the quickest route to getting it. They take shortcuts if they must, but generally, everything is aboveboard. Underhanded just isn't their style.

Some Aries people are bold, but even the quieter ones are brave and even plucky in their own way. Independence is their birthright. Nothing gets them going more than a fresh slate, the promise of a new day, and a brand new start.

Aries enjoy a challenge, and Aries Suns are happiest when their lives are moving forward and active. There's a childlike quality to all Aries Sun people, and it's often quite charming.

He has a strong personality and an entrepreneurial spirit. He is ambitious and self-willed, stubborn, obstinate, and tenacious.

Possible issues: impulsiveness, wastefulness, provoking nature, insensitivity, and restlessness.

Aries with ascendant Libra

Beautiful and charming. This Aries comes across as more conciliatory than they may actually be!

Sun in VI: The Sun is in the sixth house

The work that you do and the services that you offer are very important to your sense of identity. To feel good about yourself, you need to be busy with daily activities and produce work you can be proud of. Advice: Focus on finding a suitable and rewarding avenue for expressing this part of you, being extra careful to choose an occupation in which you can express yourself. You are sensitive to criticism about your work, and you work best when you create your own schedule. Positive feedback for your services is important to you, but be careful not to over-identify with the appreciation you receive from others, as your work and your health suffer when you feel under-appreciated. Motivation to do a good job should come from within.

Key points:

He is helpful, concerned, detail-oriented, observant, competent but not hugely ambitious, and sometimes given to fretting. He could have many pets, various minor health issues or concerns, and a strong attachment to his work or routine.

36 Trine between the Sun and Pluto

You have much sexual vitality and passion. It's easy and natural for you to find a passion, pursue it, and focus on a goal.

Not much scares you! You enjoy and embrace growth, especially of the psychological kind. You love a good mystery, and you are adept at solving it.

You readily assign meaning to what others might consider "ordinary" events. You look for symbols and read between the lines in almost any situation.

Your physical vitality is generally strong, and your body is usually able to heal quickly. You are not afraid to get your hands dirty, and you are usually quick to help others--not only with mundane tasks but also on a spiritual or psychological level.

Your insight is sharp and sometimes awe-inspiring. You are perceptive and not easily rattled or surprised in life. You are not a do-gooder, nor are you a law-breaker. However, you are not afraid of the "dark side" of human nature, and you will bend the rules from time to time if you feel the need to do so.

You take particular pleasure in growth and life's lessons. You are not fond of superficiality and are generally the first to spot pretense of any kind. You are passionate and can be intense. You have a hunger to experience more than just an "ordinary" life, and you can be quite ambitious. Some people with this aspect are perfectionists, demanding much from themselves and reasonable effort and honesty from others.

Key traits: He is creative, ambitious, and ready to transform or improve matters. He benefits from his willingness to improve, reform, and change. He has determination and willpower and can readily turn around a situation.

1 Trine between the Sun and Midheaven

He knows what he wants on a professional level; is aware of his objectives and will do everything to achieve them; he'll usually carry out plans to the very end. He has a good job as well as a good reputation.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Virgo

Lunar Virgos find security in the little things in life. They feel most content when they've straightened out all the details of everyday life. Many enjoy running errands, paying bills, and balancing the books. They take care of these things happily, although some won't let on. In fact, many Lunar Virgos are quite practiced at nagging! As long as they are appreciated, however, these people will help you take care of your life, too. They are at their best when they feel useful and needed. If somebody needs help, they are generally the first to jump up and take on the task.

Some people with Virgo Moons are accused of being underachievers. While it may be true that Lunar Virgos can lack self-confidence, many are--quite simply--content with living "regular," unassuming lives. They appreciate simplicity and are often most comfortable when they're not getting too much attention from the world at large.

Lunar Virgos are easily overwhelmed by pressure and stress. They worry incessantly when there is too much to think about, and they know their limits. Arguably the worst situation for a Lunar Virgo to endure is without a steady routine or a satisfying job. They need to feel useful, and they best express this by helping others. They need something to call their own and the space to do what they want to do. The unhappy Lunar Virgos are fussy and complaining sorts. They are victims of routine and freak out when their plans are not followed. They are restless and nervous, and can't seem to see the big picture. Probably the best remedy for them is a job or hobby in which they can express their deep need to analyze, attend to details, and micromanage.

These people express their affection for the people they care about in non-showy and practical ways. They can be a little stiff when it comes to open, gushy displays of affection. Lunar Virgos are often shy with new people. However, when they are comfortable, they are anything but shy--they're talkative, interested, and interesting.

More often than not, others can count on Moon-in-Virgo people. They are reliable and trustworthy. Above all else, Lunar Virgos are practical. Others turn to them for help and advice. In relationships, Lunar Virgos can be self-effacing and kind. Some are quite shy in love and easily intimidated. Some aren't comfortable with their sexuality, but they aim to please nonetheless. The sign of Virgo is very body-aware, in general. If this awareness combines with a lack of self-confidence, Lunar Virgos can be too aware of the parts that make up the whole. This can lead to a tendency to be intensely self-critical. Once Lunar Virgos learn to come out of their shell, however, they can be earthy partners with a lot to give.

Some of the most skeptical people are Lunar Virgos. They can't help but poke holes when faced with others' blind faith. Their criticism can be maddening, and their insistence on seeing the practical in anything emotional can be challenging, especially if you are the dreamy type. Virgo curiosity shows up big time with this position of the Moon. To some, it can be confusing. Lunar Virgos seem very interested in others' problems, for example, but can come across as cool and even unsympathetic. Their advice can seem hard to more sensitive folk, yet Lunar Virgos can be surprisingly delicate when faced with others' criticism.

Virgo Moon people are busy and quietly happy when they have their lives under control. They aim for a simple existence and are often quite content with very little. Many are early risers, ready to take on the day with enthusiasm. They scurry around, keeping busy and managing their life quietly and expertly. As long as their personal world is manageable, Lunar Virgos can be a delight to be around. They're fountains of knowledge, and they can be excellent with advice and insight. They're also a wonderful voice of reason.

Short description:

He has a very good memory. Scientific or medical studies are preferred above all others. He is humble and moderate, calm and reserved. Emotional discipline. He is willing to help, devoted and gentle.

Potential issues: servile nature, frequent changes of occupation, quick to become annoyed, upset, and worried. He is too quick to brush off opportunities.

Moon in XI: The Moon is in the eleventh house

Lots of friends, relationships. He makes friends easily, and his relationships can help further his professional success. Feelings of friendship are sometimes surface level. Often, lots of children or nurturing friendships.

This position of the Moon indicates an emotional need for belonging with, and support from, friends and associations with groups. You look to acquaintances for support and offer the same in return. A changeable or unstable social life might reflect inner emotional unrest.

Waxing and waning feelings for others can cause relationship problems. You are a person filled with many dreams, wishes, and hopes for your future, and most of these are altruistic and good-hearted desires. However, with your changing moods, you might change your aspirations frequently and have difficulty settling on goals to work towards. More stability comes from learning self-reliance.

-208 Opposition between the Moon and Mercury

There is a conflict here between the head and the heart. Your emotions tell you one thing, and your mind tells you something else. The result is a see-saw effect: you can be emotional to the point of irrationality at one moment and logical the next.

How to blend the head and the heart can be a constant struggle for you, often because you resist blending them!

You love to chat, enjoy story-telling and writing/poetry, sometimes enjoy bending the truth, and possess a sparkling wit! You are animated when you speak and have a sense of humor that others appreciate because it's highly imaginative. You may be especially adept at satire.

People can usually read your mood by how much you're talking! When nervous or excitable, you talk up a storm. Moodiness is a characteristic, definitely, and an especially subjective nature makes you prone to hypersensitivity. It usually has to do with the fact that you take in so very much from your environment.

It is for these reasons that you can often be indecisive. You may swing between irrational and rational thoughts and feelings. It's pretty much something that takes place "upstairs" in the mind, although others are sure to see the struggle occasionally.

You are always interesting and often funny. You sometimes misrepresent yourself with what you say, but you're a charming, kooky friend.

Key traits: If he is happiest in his own little imaginary world, they can be happy nowhere because he can never find his ideal world on the outside. This problem can create a lot of change, instability, and disquiet. He must aim to enjoy the moment--the real world--more often. He should watch for fibbing and gossip, but being especially sensitive to criticism and thin-skinned leaves him feeling vulnerable.

If the other aspects allow, he can be a very good novelist. Great imagination and observation.

-49 Opposition between the Moon and Mars

You can be precocious, animated, and passionate. You seek emotional excitement in your life. Although you often project a brave and tough image, your skin isn't as thick as you'd have others believe. You tend to put up defenses due to your emotionally vulnerable and excitable disposition.

Unrest is characteristic, as you are bored by routine and become easily frustrated when life is "too easy."

There's a buzz of energy surrounding you, and you tend to meet with many conflicts in your life. With the opposition, the conflict tends to be lived through relationships. The passions are quite raw, especially in youth. With the square, inner conflicts are frequent as your emotions and passions often clash.

If you can channel your excitable energy into sports or some other competitive field, all the better. Although you can be a decidedly amiable and interesting person, others always seem to sense your boundaries. Something is bound to get you worked up, and it's not always clear what that something will be. Your bluntness can be both appreciated and considered offensive, depending on your audience!

You are eager to make a personal impact on those around you. It is possible that you are sometimes too eager in this sense, and you come across as self-absorbed and difficult. Patience is definitely not your strong point! Your responses are quick, and you are a passionate person who is usually quite courageous, although your energy is sporadic and sometimes wasted. You are sexually responsive.

Short description: He is very emotional and can be driven to do things by his emotions. He may not always think things over or through in a given situation. He can be irascible and easily angered or fired up. Marital or domestic strife or a heated atmosphere at home is possible.

-259 Opposition between the Moon and Saturn

People with the Moon in hard aspect to Saturn in the natal chart take time to learn to trust others. Fear keeps them from fully enjoying personal relationships, and fear is behind the occasional rigidity they express. When they let themselves receive nurture or care from others, an inner voice cautions them that it might not be sincere, long-lasting, or enough!

There can be some reluctance about becoming a parent, but once taken on, these people don't take their responsibility lightly!

Emotional reticence is the main theme of this aspect. Many people with this had a lot of conditions placed on the love they received in early childhood and might expect the same later in life and can be plagued with doubts, not only about the self but about what to expect from life itself.

The main problem is that expecting difficulties or negative situations might create an aura around them that perpetuates the problem. They must work hard at positive thinking and expecting more from life. Ironically, many people with hard Saturn aspects can be sarcastic, skeptical, and rigid. This is essentially a defense mechanism designed to protect themselves from the harshness of the world.

It is extremely likely that they feel neglected because they perceive it in the first place and later expect it to be the case. There's a vicious circle going on here that can only be broken when the patterns created by negative conditioning are broken. Adjusting one's perceptions and expectations is the key to breaking out of these negative patterns. Otherwise, natives of hard Moon-Saturn aspects will live life feeling left out--attracting circumstances that perpetuate a feeling of deep unhappiness and dissatisfaction.

Short description: He has changeable moods, a reserved character, can be stubborn, and may lack assurance. His relationship with a guardian may have been difficult, or early family life was challenging in some cases. There's a dry sense of humor, some melancholy, and exaggerated realism.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Pisces

He sponges up the feelings and moods of people and the environment around him. Moody communication--sometimes very talkative, other times withdrawn. Tactful, preferring not to offend anyone. Fertile imagination. Flexible mind, sometimes gullible, but usually simply open to possibilities. Indirect. It can be very hard to pin him down to any one belief or decision.

Mercury in V: Mercury is in the fifth house

Taste for intellectual games, sports that require skill and finesse. He is very curious about everything, even in love. He likes children.

You tend to use your voice, whether written or spoken, as a means of creative self-expression. You can be witty and humorous, an engaging communicator, and a fun friend. You love playing games, especially ones that employ your intellect. You love tricks, jokes, plays on words, and mimicry. You might be skilled at impersonations. Some of you could be clever at lying. You might have a tendency to promise more than you can deliver, or overstate your case. In some way, you are very entertaining with the spoken and/or written word. Communication and intellectual rapport is most attractive to you when it comes to romance. In some cases, this can indicate more than one lover at once. Curiosity can be a strong motivator for making social and romantic contact. You might also take much pride in your children's intellectual abilities and talents. You would make a good teacher, as you are very curious about how people learn and can come up with many ideas that allow you to teach others creatively.

142 Conjunction between Mercury - Mars

He likes discussions, debates, polemic. He has good judgment and can be very determined. He is a worker and has lots of energy. He has a lively intelligence and usually goes to the heart of things. He is enthusiastic, incisive, and energetic in thought and speech.

24 Trine between Mercury - Jupiter

He is intelligent with big ideas: He is tolerant and has a strong sense of justice. He has good judgement, good sense and has his feet on the ground. He has the "gift of gab," fully enjoys literature and learning. He is erudite and will usually be successful socially.

297 Conjunction between Mercury - Saturn

He is precise or strives to be mentally organized. He is able to study, concentrate, and focus, and often has the patience to work towards a goal slowly but surely. He may take time to get communications "just so" and prefers step by step directions. Respects tradition and rules, preferring a sense of order.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Aries

Venus in Aries people flirt by being up-front, direct, and even daring. They try to win you over by expressing how enterprising and independent they are. Their style of expressing love can be maddeningly "me"-centered, but the right person for them will find this approach charming. People get turned on by Venus in Aries' aura of innocent charm, even when they are being childish and impatient. Venus in Aries people behave in a childlike, fun-loving manner in love. They are turned on by energy and activity. Turn-offs include a relationship that is considered stuffy or too "mature", vagueness, and beating around the bush. In love, Venus in Aries people are hopelessly addicted to the conquest.

In order for a relationship to remain fresh and new for them, they require plenty of stimulation.

Pleasing Venus in Aries involves fueling their need for action. Be direct, open, and honest with them -- they won't much like game-playing or evasiveness, unless it is in the complete spirit of fun. Feed their need for spontaneity, and appreciate their playfulness. Understand their desire for the relationship to remain young and fresh. Aries likes to take the lead in love (even if their Sun Sign is gentle Pisces) -- let them, at least most of the time. Indulge them their many whims, and understand that they thrive on competition, even when they're competing with you!

Short description:

Wants to take the lead in love, loving the conquest, can be a spendthrift with money, given to making impulsive purchases, seeks to keep things exciting in love. Very ardent. Spontaneous and charming in his direct and straightforward approach in love.

Venus in VI: Venus is in the sixth house

He may be devoted to sick or poor people. Might work in a medical or social setting, where he may meet his partner, who can be a great help professionally.

Your expressions of love and affection are practical and helpful. Being of service to a partner is especially important to you. In fact, you might go to great lengths to be available at all costs to a loved one. While you may not be flowery or showy when it comes to expressing love, you show your love by your availability, rendering services, doing practical things for a loved one, and other thoughtful "little" things. Many of you are talented at design work, as you appreciate and pay much attention to all of the little parts that make up a whole, with the goal of finding order and harmony in these systems. If you are not careful, you might pass up on true love opportunities in favor of relationships that serve a practical purpose in your life, or out of fear that you might not find better. Selling yourself short may be something that keeps you from going after what and who you want.

-13 Square between Venus - Uranus

He may look for new sensations in love and might often feel unsatisfied by connections that quickly turn into purely conventional relationships. He likes novelty, adventure, the eccentric. He is frivolous, unstable, or inconstant. Marriage is not usually for him and, if he does throw himself into this adventure, it may eventually be considered a youthful mistake. There can be numerous love affairs or off-and-on relationships. There is a tendency to react spontaneously and intensely to others, and there is marked emotional impulsiveness. Perhaps his most successful relationships are unconventional ones. He may delight in defying convention. He has considerable romantic charm and humor. There can be sudden relationship status changes, and a marked inner craving for emotional excitement.

-40 Square between Venus - Neptune

He might lack self-confidence and his ideals are not always easy to achieve. In love, he is unstable and deceitful or, more likely, meets people who are like this. He is easy-going and follows others' wishes in love much of the time, and might let the partner take the initiative more often than not.

This aspect indicates a suggestible romantic nature. Being "in love with love" is a strong possibility. You are naturally compassionate and are generally willing to go over the top for a loved one. It's hard to say whether your expectations in personal relationships are too high or too low. On the one hand, you tend to easily accept behaviors in your partners that others wouldn't accept, as you are compassionate and even drawn to people who others might consider trouble. On the other hand, your romantic dreams may be so powerful that you are easily disappointed with the reality of relationships. Deception in love is possible, but self-deception is even more likely. In love, you see what you want to see, rather than what is. Feelings of being used or deceived may come up. However, if a distinct pattern exists in your love life that involves you being let down, deceived or used, it will be especially worthwhile to examine whether self-deception was at work.

The possibility of clinging to romantic delusions is very high with this position. For example, some with these aspects cling to a romantic notion that someone loves them when in reality that person doesn't return the affection. Or, they may cling to a romance that has lost all hope. Another possibility is devoting their love to someone who is unattainable or who is unable to commit. Yet another Venus-Neptune scenario is loving someone who treats them badly, all the while clinging to an idealized image of the partner. No matter what the scenario, romantic yearning and longing, as well as delusion, tends to be the theme. The expectation here is that loving someone requires self-sacrifice. The result is an attraction to relationships that are co-dependent and even abusive. Venus-Neptune people are drawn to victim/savior relationships, and they can play either the role of victim or savior! Dependency or neediness in a partner can be confused for love. In an attempt to love unconditionally, you may too readily sacrifice your own needs and eventually feel used.

48 Conjunction between Venus - Lilith

This aspect suggests charm, beauty, attracting others by his magnetism. He is intense in love. Feelings are complicated. There can be brooding. However, he is inclined to embrace, accept, and understand the darker side of his nature.

-66 Opposition between Venus - Ascendant

He may go to excess with his pleasures, frequents doubtful company, may come across differently than expected. He is very spendthrift, but spreads his money around his circle. His friends may be more self-interested than sincere.

-2 Square between Venus - Midheaven

He can have a difficult time integrating personal and public or professional lives effectively. Both areas may suffer at times due to indecision, inconstancy.

Mars

Mars represents the desire for action and physical energy.

Mars is in Pisces

Mild-tempered and gentle, people with Mars in Pisces are appealing, attractive, and somewhat indirect. Mars is the planet of action and assertion, and Pisces is a passive sign that rarely asserts itself directly. Sometimes prone to guilt about their anger or difficulties asking for what they want, Mars in Pisces individuals often go with the flow. They may often let life "happen" instead of trying to control their life direction.

This is a charming position, as individuals with Mars in Pisces seem incapable of harming a fly. However, those who don't find creative expression for this energy can stir up a storm through indirect aggression. They're not averse to playing games to get what they want, although even they don't always know precisely what they do want! Their desires are changeable and moody. When Mars in Pisces people take a stand on issues, often those causes that are Piscean in nature, they make compassion and love their mission.

Energy levels fluctuate greatly, coming in bursts of activity followed by inertia. Because it can be difficult to align this ebbing and flowing of energy in the day-to-day world as it is, finding a job that supports this may be tough but far from impossible. The happiest Mars in Pisces individuals have a creative outlet that allows them to express their desires of the moment, their compassion--and even their anger--freely and imaginatively.
